MONEY MARKET HEAVY; **EXCHANGE WAS UNALTERED.**

CONTINUED GOOD DEMAND AT LONDON AND BERLIN.

Chinese Situation Will Insure Dullness in Europe for Some Time-No Gold Shipments.

REPUBLIC SPECIAL. New York, Aug. 1.-There was no recovery in British consols in the London market today, and the general market, including American stocks, was somewhat heavy and very inactive. Foreign bourses presented no feature of interest. Money continued in good demand in London and Berlin, and the peneral impression was that it would get ter toward the fall. There was no altern in exchange, nor did the rate in Paris ment the expectation of shipments of old from New York. Foreign news consined nothing not already known. The andicipation that most of the Powers would be emder the necessity of raising loans for war purposes limited public interest in all mar-

in the local market activity was shown in Chion Pacific on the dividend declaration, and in B. & O. common on applications. The buying in the former was of a very good character, and, although London and quite few small bulls took profits, the stock form all day. The buying in B. & O. was firm all day. The buying in B. & O. was not so good, and did not indicate any certainty as to the dividend declaration. Sugar opened weak, but hardened considy on covering of shorts by prominent bear operators. The market did not attach

of hostilities between Arbuckle and the trust. Brooklyn Transit was benefited by pool buying, probably based on the antici-pated improved showing in the forthcoming pated improved showing in the forthcoming statement, and the curtailment of transfer privileges. The steel stocks were neglected for the most part, although there was fair buying in Tennessee Coal and Iron. The general tone of the market was rather better than in the past day or two, but the trading was entirely professional and the public were doing nothing.

The close was stendy and rather dull, with some tendency to react in the industrials. B. & O. and Union Pacific maintained their strength fairly well. The borrowing demand indicated a considerable short interest in Sugar which probably helped to give the stock strength. There was no change of moment in the loaning rates in other stocks. rates in other stocks.

Except that the Chinese news fixes the date of safety for the Envoys at July 21, there is no alteration in the position in the Far East. Whatever may be the outcome, it is certain that the Powers will have to advance on Pakin and the lowers. advance on Pekin and the length of such a campaign cannot be foretold. It is sufficient, at any rate, to insure dull markets in Europe for a very considerable time to come. The resistance of the Boers has become merely nominal and it looks as if that matter might be successfully concluded at any time. ed at any time.
In spite of a little careless talk, based on in spite of a little careless talk, based on the strength of exchange as to the proba-bility of gold shipments, indications at present do not point that way. A rise of at least half a cent will be necessary in de-mand sterling before gold will go to London and at the present rate in Paris it does not pay to ship there.

The Union Pacific statement shows very nearly 9 per cent covered meanth.

It is worth while remembering that after the preferred stock gets 4 per cent the common stock gets everything. The American Hoep Company has surprised the steel and iron markets by a cut in steel bars. President Guthrie was interviewed and was disposed to minimize the effect of this, but the stock declined a couple of points. Stories connecting Pennsylvania with a possible purchase of Monon may be entirely discredited. There does not appear to be any real foundation for them. Money continues very easy. Wool.

New York, Aug. I.—Wool quiet. Boston, Aug. I.—The American Wool and Cot-ton Reporter will say to-morrow of the wool trade. crate:

"The wool market has continued to show increased activity and the sales of the last week are the largest recorded for a long time. There would have been a much larger business transacted if holders of wool had accepted the hids made by manufacturers. Holders of wool are firmer than they were two weeks ago and, in some cases, more especially on certain lines of pulled wools, have actually advanced their asking prices. Generally speaking, however, we see no reason as yet for raising wool quotations, as the great bulk of the sales made have been within the range of the flight weights, which committed this week, was at a slight advance over last year, but the extent of the buying has not as yet been very encouraging. It may improve as time goes on. If there is anything like a normal business, a good demand for wool is expected, as the large consumers, with possibly one or two exceptions, are lightly stocked.

"The sales of the week amount to 2.10.500 lbs, domestic and 12.500 lbs, foreign, making a total of 2.28550, against a total of 2.245,000 for the corresponding week last year."

FOULTRY.

POULTRY. Beavy Receipts Made the General Feeling Much Easier.

Germany.

Berlin, Aug. 1.—Exchange on London 29m 56% pfgs. for checks. Discount rates, short bills, 3% per cent; three months' bills 4 per cent. Business was quiet on the Boerse te-day, owing to the decline in foundry shares and rumors of chean American offers of iron. The prices of tipper Silesta Works eased off, especially for cent shares, Italian and Chinese securities were firm. REPUBLIC SPECIAL.

New York, Aug. I.—Live poultry receipts to-day were II cars Western. Receipts were quite heavy and several more cars are still due. The feeling was much easier, especially on spring chickens, which showed up in large proportion. Finest Indiana chickens that averaged 4 lbs. to pair or better brought 14c, but on Onio or Indianas that ran from 3 to 3½ hts. 15c was top, while Southerns sold mainly at 12½c, with the freed of values downward. Fowls slow, but steady and unchanged in price. Other classes also unchanged.

Dressed joultry receipts to-day were 842 pkgs. Fresh receipts were quite free and run fully two-thirds chickens. In addition several lots of chickens were carried over from earlier in the week. Ruyers were indifferent to taking hold with receivers inclined to keep chickens moving. The market declined to 11½c on prime scalided Western chickens, while fair to good were urgest at 1961le, with inferior dragging at 5c. Drypicked chickens when exceptionally fancy, brought 13c or better, but 126125c was full high on straight lots, while small and ordinary dragged at 1961le. Drypicked fewls in limited supply and fancy large if sold alone would bring 11c, but receivers used fewls to move chickens, and where a buyer took as many or more surings than fowls, the latter were put in at 104cc. Scalded fowls about steady at 196104c. Other classes unchanged. REPUBLIC SPECIAL. Washington, Aug. 1.—To-dav's statement of the Treasury balances in the general fund, ex-clusive of the \$150,000,000 gold reserve in the di-vision of redemption, shows: Available cash bal-ance, \$149,859,385; gold, \$73,567,575.
